EXPECTED SALARY

💰 : 15 – 18 million VND

SUMARY

I am a Web Developer with over 3 years of hands-on experience building web applications. I work well with Single Page Applications (SPA), have contributed to real-world projects, and have experience working in a Japanese company environment.

I handle developing, updating, and releasing new websites, while maintaining and upgrading systems in production. After delivery, I monitor quality and quickly resolve issues—especially UI-related problems—to ensure a smooth user experience. I can develop end-to-end from Front-end to Back-end, work flexibly with MVC and SPA, and I'm not limited to a single framework or language. I always prioritize performance, user experience, and stability in production.

EDUCATION

🎓 **Secondary School** — **2011 – 2015**

Tan Binh Secondary School

🎓 **High School** — **2015 – 2019**

Nguyen Binh Khiem High School

🎓 **University** — **2019 – 2023**

Ho Chi Minh City University of Technology (HUTECH) • Information Technology (Vietnam–Japan Program)

JOB EXPERIENCE

🎓 **ONETECH ASIA COMPANY** — **2022 – 2023**

Intern / Fresher Frontend – Fullstack Developer

Contributed to real-world projects, including the GrowUp Work recruitment website, and internal company systems.

Experienced with Vue.js (SPA), HTML, CSS, Tailwind, PHP (Laravel), and C#, handling features from Front-end to Back-end.

Built practical skills in UI/UX optimization, teamwork, and developing features based on real business requirements.

🎓 **VIET JAPAN PARTNER COMPANY** — **2023 – 2024**

Offshore Developer / UI-UX Engineer

Worked as an Offshore Developer with Japanese clients, contributing to real-world projects such as HR systems, e-commerce platforms, and business support platforms.

Designed 500+ UI/UX screens with Figma and developed frontend features using React, Vue, Angular, Next.js, WordPress, following Japanese quality standards.

Experienced in Backend (Node.js, Laravel, C#) and AWS Cloud, with strong collaboration skills across Developers, Testers, and BrSE.

🎓 **KATSURA COMPANY** — **2024 – 2026**

Software Developer / UI-UX Engineer

Contributed to client-driven projects, responsible for UI/UX design and ensuring consistent user experience across systems.

Developed and maintained 500+ reports using SVF Design & ActiveReports, with strong experience in VB.NET, report layout, and data processing flows.

Built frontend features with HTML, CSS, Element UI, VB.NET, and collaborated with backend teams using Laravel and C#, following standard testing and delivery workflows.
